Kubota Petrol Engine

Kubota's new 32.5HP liquid-cooled petrol engine delivers first-rate levels of torque, productivity, and low engine noise. And like Kubota petrol engines of the past, this new engine has been designed with a proven liquid-cooled Kubota diesel block to assure smooth operations and longevity that only Kubota is known for in this class of engine.

Pro Commercial, 72" Mower Deck

Built to maximize cutting performance, the full-size chassis ZG332 boasts 72-inch Pro Commercial mower deck options to exceed job requirements of turf professionals. Fabricated with a 6.5-inch deep design and unique baffling, Kubota's Pro Commercial decks efficiently generate high suction for a defined cut, while maintaining proper airflow for effective clipping discharge. Additionally, these decks are shaft driven with a hydraulic wet-type PTO clutch, ensuring solid engagement and years of lasting performance.

Reliable Hydrostatic Transmission

As with all Z300 Series, the ZG332 utilizes Kubota's heavy-duty integral twin hydrostatic transmission (HST) for smooth operations. Shaft driven from the engine, this HST features a hydraulic deck-lift valve, wet-type PTO clutch, and nearly 12.3 litre capacity assuring simple, reliable, and cool operations.
